EXPERIENCE

IC² Institute – <i>Summer Research Student</i> ; Austin, TX	June 2020 – August 2020
IC ² Institute is a research department at the University of Texas at Austin that is concerned with the sustainable economic development of small and remote communities and has focused some of its efforts in studying the challenges that small and remote communities have faced as a result of the COVID-19 crisis. As a Research Student, I have gone through extensive training to obtain surveys, interviews, and other data on my assigned community on their COVID-19 impact.	
UT Health Austin – <i>Patient Concierge</i> ; Austin, TX	September 2019 – December 2019
UT Health Austin is a clinical practice of the Dell Medical School at the University of Texas at Austin. As a patient concierge, I acted as a liaison between the patients and the practice by greeting patients, checking them in for their appointments, collecting co-pays, and translating forms.	
Project PISCES – <i>Research Assistant</i> ; Austin, TX	July 2019 – December 2019
Project PISCES is a research lab under Dr. Aprile Benner at the University of Texas at Austin. The goal of this lab is to learn how schools influence the development of young children, with a focus on the impact of discrimination. As a research assistant, I sent out surveys to our participants, went on home visits to check vitals, and analyzed the data collected.	
American Campus Communities – <i>Community Assistant</i> ; Austin, TX	January 2019 – July 2020
As a community assistant at The Callaway House Austin, I conducted tours for prospective residents, contributed in multiple marketing strategies, did administrative work such as filing leases and answering phone calls and emails, helped residents at the front desk, and planned and executed events. I successfully made over a million dollars in sales and helped fully lease the company's most expensive apartment complex.	
The University of Texas School of Nursing – <i>Public Health Nurse Intern</i> ; Austin, TX	August 2018 – April 2019
The School of Nursing Wellness Clinic provides healthcare to uninsured and underinsured families. As an intern at the clinic, my tasks included data entry of vaccine documentation, reporting inventory, translating, and other clerical duties. I was also able to administer flu vaccines to the staff of the University of Texas System Offices.	
Asset Campus Housing – <i>Community Assistant</i> ; Austin, TX	August 2018 – December 2018
As a community assistant for Muze Student Living, I helped lease a brand new apartment complex in Austin. My daily tasks included giving tours, answering phone calls and emails, and conducting a lot of marketing to promote this new building. The most important skills I learned were communication, adaptability, persuasion and knowledge.	
Freshman Research Initiative – <i>Undergraduate Researcher</i> ; Austin, TX	August 2017 - December 2018
FRI is the nation's largest university undergraduate research program. As a first year student, I got to work alongside faculty and graduate students in the DIY Diagnostics stream. This stream's purpose is to design and develop inexpensive and easy-to-use medical diagnostic tests meant to be used at home.
